

Installation checklist for iSentry Deadbolt

View of the Door from:
OUTSIDE your House

his is a Left Hand Side Opening Door.

This is decided from the fact that the Hinges are located on the Left of the Door when viewing from OUTSIDE your house.

If your Door Looks like this from Outside your House then —>
Ensure the Microswitch On the Back Panel of the Lock is set to L

Checklist :

- Install Template and Drill required Holes
- Install the Deadbolt (Ensure the Words UP are facing upwards).
- Ensure the Dead Bolt is in the Retracted Position or Unlock Position
- Install the Weather Rubber Shield on the Front Panel
- Install the Top Screw Extension on the Front Panel
- Ensure the Long BAR is in the VERTICAL position when installing inside the Dead Bolt and on the Door Frame
- Ensure the Cable is Routed above the Dead Bolt and only a little bit (2.5 - 4 cms) sticks out behind the Back Frame.
- Ensure Microswitch on the Back Panel is set to L
- Install Back Panel with the Door Knob in the HORIZONTAL Position.
- Test the Operation of the Door Knob (Open and Close)

This is a Right Hand Side Opening Door.

This is decided from the fact that the Hinges are located on the Right of the Door when viewing from OUTSIDE your house.

If your Door Looks like this from Outside your House then —>
Ensure the Microswitch On the Back Panel of the Lock is set to R

Checklist :

- Install Template and Drill required Holes
- Install the Deadbolt (Ensure the Words UP are facing upwards).
- Ensure the Dead Bolt is in the Retracted Position or Unlock Position
- Install the Weather Rubber Shield on the Front Panel
- Install the Top Screw Extension on the Front Panel
- Ensure the Long BAR is in the VERTICAL position when installing inside the Dead Bolt and on the Door Frame
- Ensure the Cable is Routed above the Dead Bolt and only a little bit (2.5 - 4 cms) sticks out behind the Back Frame.
- Ensure Microswitch on the Back Panel is set to R
- Install Back Panel with the Door Knob in the VERTICAL Position.
- Test the Operation of the Door Knob (Open and Close)
